MEMORANDUM FOR: Various Addressees

FROM :

[Redacted]  
Assistant General Counsel

SUBJECT

: Modification of 17 April 1978 Compilation of Intelligence  
Community Comments Regarding S.2525

1. Enclosed is a replacement section of comments as to Title II of S.2525. This section has been revised to include the comments of DOD concerning Title II which were received subsequent to the issuance of the 17 April 1978 package of comments you received under Tony Lapham's signature. The 39 pages in that 17 April document concerning Title II, Sections 201 through 271, should be removed and the attached pages substituted.

2. In addition, there is a typographical error in the section of the 17 April compilation dealing with Title I which requires correction. On page 38 of that section, the comment heading "151(d)(4)" should actually be "151(e)(4)". The intent of this CIA comment was to clarify the respective responsibilities of the inspectors general and general counsels and not, as the error would make it appear, to eliminate the inquiry authority of the IOB.
